As the IRA march through the streets of London, gloating over their bombings...

ONLY THE NF TURNED OUT TO PROTEST

AN EFFIGY OF an IRA terrorist was hung from a gallows by National Front demonstrators near Speakers' Corner in London's Hyde Park on Sunday 2nd February.

The NF demonstration was called to protest at the pro-IRA Bloody Sunday march organised by the Labour Party supported Irish Freedom Movement. Marchers from nearly every political organisation 'on the Left' joined together with representatives from the Ethnic Minorities and no-nonsense IRA supporters to make their way from Hyde Park to Kilburn.

JAPS GET ORDER

AN EFFIGY OF an IRA terrorist was hung from a gallows by National Front demonstrators near Speakers' Corner in London's Hyde Park on Sunday 2nd February.

The NF demonstration was called to protest at the pro-IRA Bloody Sunday march organised by the Labour Party supported Irish Freedom Movement. Marchers from nearly every political organisation 'on the Left' joined together with representatives from the Ethnic Minorities and no-nonsense IRA supporters to make their way from Hyde Park to Kilburn.

JAPS GET ORDER

BRITISH Nuclear Fuels, a state-owned firm has given a £10 million ship-building contract to Japan.

British Shipbuilders believe the ship, the Pacific Pintail, was given to Mitsubishi because their offer was subsidised by cheap finance in Tokijo.

Mr. Jim McFall, a leader of the boilermakers' union said the deal was an outrage at a time when our shipbuilding industry is fighting for its life.

CITY SINKS TIN

BUYING and selling on the international money markets has brought about a crisis that threatens the Cornish Tin Industry.

Profiteering by the City's wideboys caused the collapse of the World's tin trade and the closure of tin mines such as Geevor at St. Just in West Cornwall.

370 workers at the mine have been laid off and new head gear on the Allen shaft at Botallack lies rusting and unused.

Chants of IRA rang out through the streets of London, while one section of the march joined in ritual cheering as a youth in dark glasses and a black beret called out such names as the 'Brighton Bomb', 'the Harrods Bomb', Airey Neave and Robert Bradford.

PROVOCATION

Under such provocation it was hardly surprising that 15 National Front members were arrested trying to breach the police cordon protecting the march to show their disgust at this sickening gloating by the IRA over their murdered victims in a city that has suffered numerous outrages at the hands of these vicious terrorists.

More than half those arrested were released without being charged which was a welcome change of attitude by the Police. At a previous anti-IRA demonstration at Jubilee Gardens by City Hall, 29 NF members were arrested and charged with numerous ridiculous offences. Charges that in many cases were thrown out when the cases came to court.

MAIN OFFENDER

The main offender of the afternoon was the IRA effigy itself. Hoisted as the IRA marchers came by, the balaclava-helmeted dummy was caught by a gust of wind and careered into a line of policemen knocking their helmets off. This led to the effigy and its minder being promptly led away by two bare-headed bobbies only to be released later without being charged.

The National Front demonstration was a great success. More than 500 members and supporters crowded into Tyburn Way, by Marble Arch, at 1.00 p.m. together with Union Jacks, placards, banners, and loud-

STA ALO

hailers to continue a relentless chant of "Smash the IRA" till the marchers passed by just after 2.00p.m.

Half an hour later after discussion with senior police chiefs, the National Front managed to negotiate a march down Oxford Street to Central Hall in Great Russell Street where an indoor rally took place.

At the Central Hall an enthusiastic audience heard National Front speakers denounce the IRA and the Anglo-Irish Accord.

David Gobell, Organiser of Havering NF, chaired the meeting and took great pleasure in introducing the first speaker, Jim Morrison, the Chairman of Belfast National Front.

Jim Morrison said that the day had been another victory for the National Front over those who support the murder and brutality of the IRA. "It is only the National Front who organise every year to make sure that these murdering bastards don't march on the streets of Britain unopposed".

REMINDED

Deputy Chairman of the National Front, Nick Griffin, reminded the meeting that the last time the IRA had been in Hyde Park they had blown up the bandstand, butchering British bandmen and their horses. Nick Griffin went on to outline how the National Front was making the British people aware of the loyalty and patriotism of the people of Ulster and conducting its

marchers passed by just after
2.00p.m.

Half an hour later after discussion
with senior police chiefs, the
National Front managed to negotiate
a march down Oxford Street to
Central Hall in Great Russell Street
where an indoor rally took place.

At the Central Hall an enthusiastic
audience heard National Front
speakers denounce the IRA and the
Anglo-Irish Accord.

David Gobell, Organiser of
Havering NF, chaired the meeting
and took great pleasure in intro-
ducing the first speaker, Jim
Morrison, the Chairman of Belfast
National Front.

Jim Morrison said that the day
had been another victory for the
National Front over those who
support the murder and brutality
of the IRA. "It is only the National
Front who organise every year to
make sure that these murdering
bastards don't march on the streets
of Britain unopposed".

REMINDED

Deputy Chairman of the National
Front, Nick Griffin, reminded the
meeting that the last time the IRA
had been in Hyde Park they had
blown up the bandstand, butchering
British bandmen and their horses.
Nick Griffin went on to outline
how the National Front was making
the British people aware of the
loyalty and patriotism of the
people of Ulster and conducting its

own campaign against the supporters
of the IRA on the mainland.

National Front Chairman, Martin
Wingfield, was the final speaker of
the afternoon. He told those
present that Mrs Thatcher was
deceiving the British people over
her intentions in Ulster.

"Deceiving is second nature to
Mrs Thatcher, just as she deceived
the British people in 1979 by
saying she "understood the fears
of being swamped by coloured
immigration" she is now deceiving
the British people over her inten-
tions in Northern Ireland."

The Anglo-Irish Accord has
nothing to do with 'unacceptable
levels of violence'. The Anglo-Irish
Accord is a concoction thought up
by Washington, Dublin and West-
minster designed to put into
motion a process that will lead to
the surrender of Ulster to the South.

The Iron Lady has no intention of
defeating the IRA and its allies".

The meeting ended with a collec-
tion and a 'Roll of Honour' of
those groups and branches who
had made special efforts to ensure
a big turnout for the demonstration
being read out by Directorate
member John Field.

Generous applause was given to
members from Belfast, Newcastle,
Birmingham, Preston and Manches-
ter, while new branches who
received a special mention for their
efforts in supporting the demon-
stration were Liverpool, Reading
and Epping.

PROMINENT

Despite a television blackout
(both ITV and BBC preferred to
show a football match between
Derry City and police from
Southern Ireland) many thousands
of people saw the National Front
demonstration due to its prominent
position by Marble Arch.

Our opposition to the IRA must
give comfort to the patriotic
people of Ulster in showing them
that both in Ulster and on the
mainland the National Front is
prepared to stand up and speak out
on their behalf.

White Pride Black Pride

RACIAL prejudice among
Black and White teenagers is
showing an "alarming growth".

The survey in the *New
Society* magazine of 20th
February reveals that two-in-
five White teenagers admit
being prejudiced against
people of other races and
prejudice amongst West Indians
is as high as among Whites.

The survey says that open
prejudice seems to be becom-
ing more acceptable.

£150 M GRAIN STORE

BRITAIN'S grain mountain
stands at 7 million tonnes. It
costs £150 million a year to
store.

Despite this Britain will
import another 3 million
tonnes of wheat at a cost of
£200 million.

Such a waste of food and
such a waste of money is the
price Britain has to pay for
being a member of the
Common Market.

NATIONAL FRONT NEWS

P.O.Box 230, Worthing, Sussex BN14 8EG.

NAILING THE MEDIA LIES

With 1986 only eight weeks old we have already seen attacks on the National Front in *Time Out*, *The Observer* and the *Yorkshire Post*. Attacks which seek to blacken the name of the National Front and set the British people against us.

NF Chairman, Martin Wingfield, set the record straight once and for all in a facts sheet sent to the leader of the House of Commons, John Biffen. Excerpts from the facts sheet are printed below.

1) — The National Front is recruiting members for the Ulster Defence Association.
The National Front is not recruiting for the U.D.A. We have our own National Front branches in Ulster at Belfast and Coleraine.

In the *Guardian* of 18th February, a spokesman for the U.D.A. said that recruitment literature was sent to its members in Leeds, Liverpool, Manchester and Scotland. Mr. Andy Tyrie of the U.D.A. said "People recruiting for us go wherever they can to get the leaflets out".

It is possible that some members of the National Front hold dual membership with that of the U.D.A. The U.D.A. is a legal organisation which has offices just off the Newtownards Rd, in Belfast. The U.D.A. is not a proscribed organisation by the National Front.

I have spoken at 15 National Front meetings up and down the country this year. I have never seen a U.D.A. recruiting leaflet.

The National Front does sell copies of the U.I.S.'s very good magazine *Ulster*. We also sell the *Ulster Sentinel* from the Independent Unionist Association and also *Ulster: The Facts* from the Democratic Unionist Party.

2) — The National Front is run by and/or influenced by and/or has links with Italian Terrorists.

The National Front is led by an 18-man National Directorate which is elected by the membership of the National Front. All members of the

organised National Front branches the number of racial attacks are insignificant. This is because the National Front channels any frustration that members might feel into leafletting, posterage and electioneering to bring about the policies of the NF which would return all coloured immigrants to the land of their ethnic origin.

Any National Front member found involved in racial attacks would be suspended from the party. He would face a disciplinary inquiry and if found guilty of the offence would be expelled from the party.

4) — The National Front has given up on its policy of fighting elections and has changed itself into a "terrorist" organisation.

The National Front is a lawful, law-abiding political party dedicated to fighting elections and

thanked the National Front for its help in his inquiry into soccer violence. The report acknowledged that NF members sold papers outside the football grounds but said that the NF was not involved in organising soccer violence. The report printed the findings of Liverpool Police which stated "There is no evidence whatsoever that the National Front or any of its members were involved in the events at the Heysel Stadium".

6) — The National Front is an anti-democratic Nazi and/or Fascist Party.

The National Front is a democratic political party with a constitution. It holds elections to the Governing Directorate every year and elections to the Chairmanship every two years.

The National Front is a Distributist Party, believing in the concept of widely distributed ownership of property. Consequently we are opposed to both Communism and Capitalism because they both lead to ownership and control by the few.

A Lawful Political Party

General Election Campaign Trail

CONSTITUENCY NO. 1. HOVE, SUSSEX.

IT WAS THE election-minded National Front branches in Sussex that were the first to get some of their General Election candidates adopted. First by a hair's breadth was veteran National Front campaigner, Ted Budden who was adopted as prospective National Front parliamentary candidate for Hove at the monthly meeting of Brighton National Front branch on February 20th.

The National Front did not fight

Hove at the last General Election, but in 1979 they polled 508 votes (1.2%) the third highest NF vote in Sussex. Ted Budden's nomination was proposed by Ivor Bridgeland who headed a vociferous lobby supporting Mr. Budden's adoption. Hove has seen a welcome surge in National Front recruitment over the past two years and local activists are certain that they can give their candidate a professional and effective campaign.

Labour warn of NF growth

PROSPECTIVE LABOUR parliamentary candidate for Lancaster, Joseph Gallagher has given up attacking the Tories to concentrate on warning voters in his constituency of the growth of the National Front in his area.

At a specially convened meeting Labour Party officials announced that there was intense National Front activity in Garstang, Cokerham and Bilsborrow. The Labour prospective candidate told the *Lancashire Evening Post*,

"It seems the NF are deliberately

targeting Garstang there have been leaflets given out combating drug abuse and promoting co-operatives. This is all very worrying".

Garstang Youth Officer, Nick Piela, told the meeting that youth workers had seen patriotic tendencies among the youngsters at the clubs with some claiming NF membership, while deputy head of Garstang High School said there had been instances of NF leaflets being distributed outside the school grounds over the last few months.

Preston gains new members

THE FIRST street sale of National Front literature for six years took place in Preston last month reflecting the growth of the NF in this area.

While in nearby Kirkham paper sales and leafletting have been producing new members for the Preston Branch.

The Front's Blackpool area Chairman, Mr. Wilfred Smith, told the *Lytham, St Annes and Kirkham Citizen* "The policies of the National Front appear to be very popular in Kirkham, with young folk in particular, eager to hear our message."

once and for all in a facts sheet sent to the leader of the House of Commons, John Biffen. Excerpts from the facts sheet are printed below.

1) — The National Front is recruiting members for the Ulster Defence Association.

The National Front is not recruiting for the U.D.A. We have our own National Front branches in Ulster at Belfast and Coleraine.

In the *Guardian* of 18th February, a spokesman for the U.D.A. said that recruitment literature was sent to its members in Leeds, Liverpool, Manchester and Scotland. Mr. Andy Tyrrie of the U.D.A. said "People recruiting for us go wherever they can to get the leaflets out".

It is possible that some members of the National Front hold dual membership with that of the U.D.A. The U.D.A. is a legal organisation which has offices just off the Newtonards Rd, in Belfast. The U.D.A. is not a proscribed organisation by the National Front.

I have spoken at 15 National Front meetings up and down the country this year. I have never seen a U.D.A. recruiting leaflet.

The National Front does sell copies of the U.I.S.'s very good magazine *Ulster*. We also sell the *Ulster Sentinel* from the Independent Unionist Association and also *Ulster: The Facts* from the Democratic Unionist Party.

2) — The National Front is run by and/or influenced by and/or has links with Italian Terrorists.

The National Front is led by an 18-man National Directorate which is elected by the membership of the National Front. All members of the Directorate are British. The day to day running of the party is by an Executive Council which is elected by the members of the Directorate. All members of the Executive Council are British.

I have been a member of the National Front for ten years, a member of the Directorate of four years, and on the Executive Council for two years. In all this time I have never met an Italian in connection with the party or with party business.

3) — The National Front is responsible for organising and/or promoting racial attacks on individuals from the Ethnic Minorities.

The National Front does not promote racial hatred. The National Front promotes respect of different races for each other. The National Front believes in *White Pride* just as the West Indians and Africans believe in *Black Pride*. Since the end of last year the National Front has been in contact with numerous Associations which represent the Ethnic Minorities asking for the opportunity to explain our policies to them.

Racial Attacks are the symptoms of a sick society. Perpetrated by frustrated British youngsters with no future looking for scapegoats. In areas where there are well

organised National Front branches the number of racial attacks are insignificant. This is because the National Front channels any frustration that members might feel into leafletting, posterage and electioneering to bring about the policies of the NF which would return all coloured immigrants to the land of their ethnic origin.

Any National Front member found involved in racial attacks would be suspended from the party. He would face a disciplinary inquiry and if found guilty of the offence would be expelled from the party.

A Lawful Political Party

4) — The National Front has given up on its policy of fighting elections and has changed itself into a "terrorist" organisation.

The National Front is a lawful, law-abiding political party dedicated to fighting elections and gaining power through the ballot box. Up and down the country the National Front will be contesting council elections this May and at the General Election the party is confident of putting up 60+ candidates possibly more if the growth of the party continues at its present rate. This will be no mean achievement considering that the party fought the same number in 1983 and since that time the election deposit has trebled.

Every Saturday NF members can be seen selling newspapers and handing out leaflets in High Streets all over Britain. Is this the actions of members of a "terrorist" organisation?

The National Front has invested thousands of pounds in its own printing operation. Is that the action of a "terrorist" organisation?

The National Front has just installed a new computer in its Administration Office. Is that the action of a "terrorist" organisation?

The National Front has just paid-off a massive back-tax debt to the Inland Revenue dating back over ten years! Is that the action of a new leadership bent on taking the National Front down the road to "terrorism"?

5) — The National Front is involved in organising soccer violence.

Justice Popplewell last month

"There is no evidence whatsoever that the National Front or any of its members were involved in the events at the Heysel Stadium".

6) — The National Front is an anti-democratic Nazi and/or Fascist Party.

The National Front is a democratic political party with a constitution. It holds elections to the Governing Directorate every year and elections to the Chairmanship every two years.

The National Front is a Distributist Party, believing in the concept of widely distributed ownership of property. Consequently we are opposed to both Communism and Capitalism because they both lead to ownership and control by the few.

Why the smears?

The question in everyone's mind now is of course why should the *Yorkshire Post*, for four days, print unfounded allegations against the National Front without seeking to get comment from the National Front locally or nationally?

It was after three days of allegations that I telephoned the *Yorkshire Post* and asked to be able to answer their allegations. They said they would give me an interview so I went up to Leeds, at my own expense, and gave a two and a half hour interview. Two minutes of that interview were printed and then my words were twisted and taken out of context. Why?

The answer can be found in N.U.J. guidelines adopted in 1978. These guidelines state:—

i) That journalists should do their best not to report the activities of the NF where possible, and that where they do have to report them, the reports should be as small as possible and always accompanied by lengthy reaction from opponents of the NF.

ii) While journalists should try not to report the activities of the NF, they should regularly produce articles "exposing" and attacking the party.

iii) The quotations of NF officials should not be reported in a straightforward manner.

iv) If any editor attempts to change articles then industrial action should be taken.

It makes sinister reading doesn't it? This proves that lies about the National Front can not only be published in newspapers but are also encouraged to be done so.

IT WAS THE election of the National Front branches that were the first to their General Election adopted. First by a was veteran National campaigner, Ted Budd adopted as prospective Front parliamentary Hove at the month Brighton National Front February 20th. The National Front

First by a hair's breadth was veteran National Front campaigner, Ted Budden who was adopted as prospective National Front parliamentary candidate for Hove at the monthly meeting of Brighton National Front branch on February 20th.

The National Front did not fight

Hove at the last General Election, but in 1979 they polled 508 votes (1.2%) the third highest NF vote in Sussex. Ted Budden's nomination was proposed by Ivor Bridgeland who headed a vociferous lobby supporting Mr. Budden's adoption. Hove has seen a welcome surge in National Front recruitment over the past two years and local activists are certain that they can give their candidate a professional and effective campaign.

Labour warn of NF growth

PROSPECTIVE LABOUR parlia-mentary candidate for Lancaster, Joseph Gallagher has given up attacking the Tories to concentrate on warning voters in his constituency of the growth of the National Front in his area.

At a specially convened meeting Labour Party officials announced that there was intense National Front activity in Garstang, Cokerham and Bilsborrow. The Labour prospective candidate told the *Lancashire Evening Post*,

"It seems the NF are deliberately

targeting Garstang there have been leaflets given out combating drug abuse and promoting co-operatives. This is all very worrying".

Garstang Youth Officer, Nick Piela, told the meeting that youth workers had seen patriotic tendencies among the youngsters at the clubs with some claiming NF membership, while deputy head of Garstang High School said there had been instances of NF leaflets being distributed outside the school grounds over the last few months.

Preston gains new members

THE FIRST street sale of National Front literature for six years took place in Preston last month reflecting the growth of the NF in this area.

While in nearby Kirkham paper sales and leafletting have been producing new members for the Preston Branch.

The Front's Blackpool area Chairman, Mr. Wilfred Smith, told the *Lytham, St Annes and Kirkham Citizen* "The policies of the National Front appear to be very popular in Kirkham, with young folk in particular, eager to hear our message."

THE THREAT OF THE MULTINATIONALS

FIVE HUNDRED multinational corporations — many of them linked together by reciprocal shareholdings and shadowy 'holding companies' — control over half of the World's trade. This vast concentration of economic power threatens Britain's economic, national and racial freedom.

It enables the multinationals to extort exorbitant prices for vital import commodities, to undercut British workers in manufactured goods we can produce here, to cheat our country of taxes, and to swamp our land with cheap coloured labour.

The extent of multinational control, especially of tropical crops we import to this country is enormous. For example: 15 multinationals own 85% of the cotton traded in the World; 5 own 75% of the World's cocoa crop; 6 control 85% of global tobacco sales. Over two thirds of the World's supply of agricultural fertilizer comes from sixteen multinationals, and over three-quarters of the global agricultural machinery is sold by just three.

Many multinationals earn profits

greater than the gross national products of most of the World's countries. But their subsidiaries in Britain and other Western countries pay very little of these ill-gotten gains in tax to their hosts. They dodge our taxes by making sure that their subsidiaries in low-tax countries register nearly all the profits made by the multinational as a whole whilst British and other high-tax country subsidiaries "manage to make" hardly any profit, or even a loss, and so are not liable for much tax.

In effect, the international plutocrats shift their lolly from one hand within the reach of the Western taxman to the other, out of that reach. Our example, the fifteen cotton multinationals, fiddled their way out of an estimated £250 million in tax in the late 1970's in this way.

But it is in the field of manufactured goods that the multinationals hit the British worker hardest. For, unlike national firms tied to their home country, multinationals can move their assembly plants, and hence they can use cheap coloured labour to undercut our workers, flooding our home market with cheap goods and putting our workers on the dole.

CHEAP LABOUR

This is just what is happening. More and more of the routine assembly work in industries like electronics is being done in 'Free Trade Zones' provided by coffee-coloured 'Third World' countries in the Far East, Latin America, Asia and Africa. These 'Zones' provide incentives and low taxes to multinationals setting up plants there provided they export all they produce. They also provide a dirt-cheap, mainly female workforce, prepared to work long hours, in appalling conditions, for low pay at boring jobs.

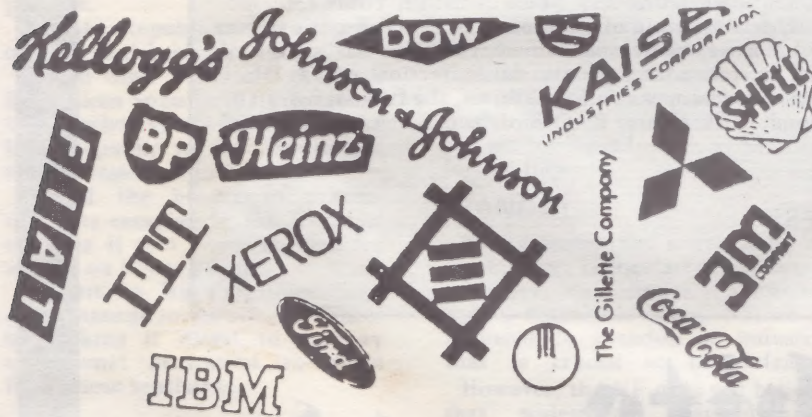

For example the women in a typical factory in the Bataan Free Zone in the Philippines work from 6a.m. to 10p.m. six days a week, and from 6a.m. to 6p.m. on Sundays, sometimes being forced to work three days and two nights running by being locked in their factory. Wages such as £13 a month in Sri Lanka are common. Trade Unions are generally illegal.

Of course, White workers would never stand for this. But as one Dunlop plant manager in the Philippines said of his workforce: "Their mental age is probably lower than in Europe". So the multinationals are cashing in. For example, silicon wafers are being made in the U.S.,

air-freighted to 'Free Trade Zones' in Malaysia and the Philippines, bonded, and then flown to America for assembly in at factories. The cheap sweat of the Orient which ruined cashmere textile mills in the thirties are now ruining manufacturing industries of the service of the profit multinationals.

Even bigger profits can be made by the cheap coloured labour moved into the consumer countries. So multinationals are encouraging coloured immigration into countries and promoting racialism to keep their cheap labour.

In Britain, coloured immigrants in certain industries, such as the car, have so undercut Whites that Whites are willing to work long hours for low pay in bad conditions. Multinationals are gleefully taking our labour costs "the cheap" in the developed world! And over 10 million, mostly Whites, are

AFRICA NEEDS BIRTH CONTROL NOT BAND-AID

BAND-AID food shipments are making the African famine crisis worse, top scientists said recently. The scientists, leading ecologists from the University of British Columbia, pointed out the harsh reality that the root of the hunger problem in Ethiopia, the Sudan and other parts of Africa is not too little food. It is too many people. And food aid is only making this worse.

It was well-meaning but unthinking "aid" to Africa from White countries, the Canadian experts rightly say, which created the problem in the first place. For centuries, the population of areas like Ethiopia was kept down to a level the land could feed

international pluto- lolly from one hand n of the Western tax- er, out of that reach. the fifteen cotton diddled their way out £250 million in tax s in this way.

But is it in the field of manufactured goods that the multinationals hit the British worker hardest. For, unlike national firms tied to their home country, multinationals can move their assembly plants, and hence they can use cheap coloured labour to undercut our workers, flooding our home market with cheap goods and putting our workers on the dole.

CHEAP LABOUR

This is just what is happening. More and more of the routine assembly work in industries like electronics is being done in 'Free Trade Zones' provided by coffee-coloured 'Third World' countries in the Far East, Latin America, Asia and Africa. These 'Zones' provide incentives and low taxes to multinationals setting up plants there provided they export all they produce. They also provide a dirt-cheap, mainly female workforce, prepared to work long hours, in appalling conditions, for low pay at boring jobs.

For example the women in a typical factory in the Bataan Free Zone in the Philippines work from 6a.m. to 10p.m. six days a week, and from 6a.m. to 6p.m. on Sundays, sometimes being forced to work three days and two nights running by being locked in their factory. Wages such as £13 a month in Sri Lanka are common. Trade Unions are generally illegal.

Of course, White workers would never stand for this. But as one Dunlop plant manager in the Philippines said of his workforce: "Their mental age is probably lower than in Europe". So the multinationals are cashing in. For example, silicon wafers are being made in the U.S.,

air-freighted to 'Free Trade Zones' in Malaysia and the Philippines for bonding, and then flown back to America for assembly in automated factories. The cheap sweat-shops of the Orient which ruined the Lancashire textile mills in the twenties and thirties are now ruining all the manufacturing industries of the West, in the service of the profits of the multinationals.

Even bigger profits can be made if the cheap coloured labour is actually moved into the consumer countries. So multinationals are encouraging coloured immigration into White countries and promoting multi-racialism to keep their cheap labour here.

In Britain, coloured immigrants in certain industries, such as textiles, have so undercut Whites by their willingness to work long hours for low pay in bad conditions that multinationals are gleefully finding our labour costs "the cheapest in the developed world"! And over three million, mostly Whites, rot on the

British dole.

In the short term, we can drive out these multinational bloodsuckers by putting their British subsidiaries under native ownership, sending their cheap coloured labour here back to their own countries, and preventing their cheap coloured labour abroad from undercutting our workers by introducing rigorous import controls.

But in the long term, if that is all we do, the multinationals will return. For multinational Capitalists were all national Capitalists once. Multinational corporations are an inevitable product of the Capitalist system, with its Stock Exchanges and its shareholdings, just as maggots are of a dungheap.

We must clean out the dungheap, dismantle Capitalism itself, and hand our industries over to those who work in them. And we must help other countries to do the same, so that in return for the raw materials we need, they get not multinational exploitation but the manufactured goods they need in fair exchange.

NEEDS BIRTH NOT BAND-AID

FROM THE FRONT LINE

STOCKPORT RALLY

NF members make their way through the Red mob.

A LOW-KEY local NF rally in Stockport, near Manchester, turned into a major battle for the right to free speech at the end of the year. But despite being outnumbered ten-to-one National Front activists in the North West showed their mettle and held their meeting on the theme "Defend Free Speech".

For example the women in a typical factory in the Bataan Free Zone in the Philippines work from 6a.m. to 10p.m. six days a week, and from 6a.m. to 6p.m. on Sundays, sometimes being forced to work three days and two nights running by being locked in their factory. Wages such as £13 a month in Sri Lanka are common. Trade Unions are generally illegal.

Of course, White workers would never stand for this. But as one Dunlop plant manager in the Philippines said of his workforce: "Their mental age is probably lower than in Europe". So the multinationals are cashing in. For example, silicon wafers are being made in the U.S.,

America for assembly in factories. The cheap sweat the Orient which ruined cashmere textile mills in the thirties are now running manufacturing industries in the service of the profit multinationals.

Even bigger profits can be made by the cheap coloured labour moved into the consumer. So multinationals are encouraging coloured immigration in countries and promoting racialism to keep their cheaps here.

In Britain, coloured immigrants in certain industries, such as in the car, have so undercut White workers' willingness to work long hours for low pay in bad conditions that multinationals are gleefully cutting our labour costs "the cheap way" in the developed world! And of course, mostly Whites, re-

AFRICA NEEDS BIRTH CONTROL NOT BAND-AID

BAND-AID food shipments are making the African famine crisis worse, top scientists said recently. The scientists, leading ecologists from the University of British Columbia, pointed out the harsh reality that the root of the hunger problem in Ethiopia, the Sudan and other parts of Africa is not too little food. It is too many people. And food aid is only making this worse.

It was well-meaning but unthinking "aid" to Africa from White countries, the Canadian experts rightly say, which created the problem in the first place. For centuries, the population of areas like Ethiopia was kept down to a level the land could feed by natural factors like disease and infant mortality. The land stayed fertile and hunger was rare and soon ended.

Then White missionaries and charity workers, meaning well, arrived and started dishing out medicines and vaccines. But they didn't dish out birth control information or explain that the number of people had to be kept down to a level the land could feed. So the population exploded, trebling since 1950. Ten years ago, there were 27 million Ethiopians. Now there are 41 million, and there are more every day. Before the drought, the population of the African Sahel belt was increasing by 3% a year. Food production there was rising by only 1.5% a year. So the number of people was increasing twice as fast as the amount of food produced to feed them. Obviously, disaster was looming.

BARE SOIL

But the population explosion caused by Western "aid" was not only outstripping the food supply. It was destroying the land from which that food had to come. As the number of Africans rocketed, so did the number of their cattle. They ate all the grass, leaving the bare soil to blow away. The Blacks chopped down more and more trees to fuel

Only population control will end famine in Africa.

cooking fires, making soil erosion worse. The bare dusty earth replacing trees and grass over vast areas changed the weather patterns, so the rains stopped coming.

The population kept on rising, but without rain food output slumped — down 15% in 1984 alone. Result — famine.

So Western "aid" caused a Black population explosion. The Black population explosion outstripped their food supply and destroyed the ecology and weather patterns, causing the drought. The drought caused the famine. Fifty years of well-meaning "aid" turned prosperous peasant farmers tilling rich pastures into starving masses dying in a desert. And that's where Bob Geldof and Band-Aid came in.

For Band-Aid's "help" is all set to bring about further famine, misery and death in Africa. For until the real problem — the Black birth-rate is tackled, feeding starving Blacks today means creating more starving Blacks you cannot feed tomorrow. Each Black baby saved today means several Black babies in twenty years time. Who will feed them? Bob Geldof may be able to feed forty million hungry Ethiopians today. Can he feed a hundred million a generation from now? Three hundred

million a generation after that? Of course not.

BRUTAL REALITY

The brutal reality is that if Ethiopia — or anywhere else — can only feed twenty million people then in the long run only twenty million can live there. The rest must either go — and there is nowhere for them to go — or die. If that rest the land can't feed is twenty million, twenty million will starve. If, thanks to kind Bob Geldof, it is forty million, forty million will starve. Band-Aid's "help" will have condemned an extra twenty million Black babies to a lingering death, doubling the death toll. Or worse, since the extra Blacks Band-Aid "saved" will further devastate the land, so that it will feed even fewer people.

The fact, as agricultural and ecology experts well know, is that Africa needs birth control, not Band-Aid. Band-Aid is saving Black babies today only by condemning millions more Black babies to die tomorrow. But putting a fiver in the Band-Aid box to "Feed the World" makes nice liberals feel good, so they can look down their noses at the "nasty racist NF". But it is the nice liberals, not the nasty NF, who are going to kill millions of Black babies

FROM THE FRONT LINE

STOCKPORT RALLY

NF members make their way through the Red mob.

A LOW-KEY local NF rally in Stockport, near Manchester, turned into a major battle for the right to free speech at the end of the year. But despite being outnumbered ten-to-one National Front activists in the North West showed their mettle and held their meeting on the theme "Defend Free Speech — Scrap the Race Act."

Only two weeks before, the substantial Marxist rent-a-mob at nearby Manchester University had howled down and assaulted government minister David Waddington in spite of the efforts of the police, Special Branch and his own "minders" to protect him. Flushed with this easy victory, the Reds announced a major national mobilisation to "Kick the NF Out of Stockport".

But the Communist bullies found that NF activists are a more dangerous target to pick on than whining Tory ministers and their security men. The 500-strong Red mob attacked a group of just 15 NF members, who nevertheless fought their way through to the assembly point at Stockport station. Barricaded in the station under a hail of missiles, the NF group held off the screaming mob until the cavalry arrived in the shape of 15 members from Manchester. Faced with less advantageous odds and the fact that the unarmed NF men had confiscated a number of weapons, including hammers and an axe from their assailants, the Red students backed off.

At this stage the police felt it was safe to put in an appearance and escort fifty NF members to the

rally site.

The meeting had been scheduled for the Town Hall, but the council decided to keep the Front off council property by a last minute underhand ban by demanding hundreds of pounds insurance cover. Angered by this hypocrisy, dynamic Manchester NF Organiser Alex Malcolm announced that the NF would be meeting in the Town Hall car park — also council property — and that there was nothing the council dictators could do to stop it. It was at this stage that the rent-a-mob Marxists came to the aid of their Establishment "opponents" by announcing their intention to "Smash the NF off the streets."

In the end, thanks to the bravery of the NF members, this anti-British alliance failed. The unjust council decision won the local National Front excellent publicity and all the violent Reds got for their pains was the arrest of a dozen of their comrades and trips to the local hospital for several others. Some of these came from as far afield as Nottinghamshire, Hull and North London. The NF held a peaceful street meeting as planned, chaired by Alex Malcolm, with speeches by local officials and NF Deputy Chairman Nick Griffin.

The National Front and Ulster

**Smash
The IRA!**

ULSTER is British. Recognition of this fact — and a determination to defend it — forms the basis of NF policy in Ulster. With this policy of dedication to victory (and not of searching for the best formula for defeat), the IRA's violence and murder will come to an end.

The National Front will:

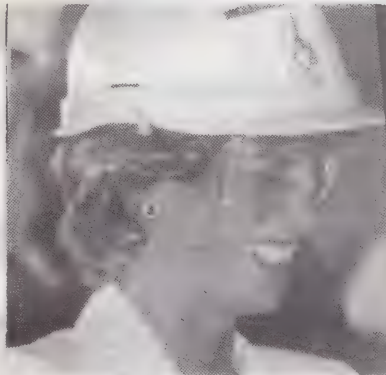

- * Allow the Security Forces to treat the campaign against the IRA/INLA as an operation of war, subject to the rules of war, and to wipe them out as quickly as possible.

- * Make Republican terrorism an offence punishable by death.

- * Ban Sinn Fein and the Irish Republican Socialist Party. Persuade those who sympathise with the Irish Republic to move south and take up residence in Ireland.

- * Seal the border to prevent terrorists escaping to the Republic or using it as a launching pad for attacks on Ulster people.

- * Start to lay the foundations of permanent social unity in Ulster by making it illegal to use any educational institution to breed Republican sentiment.

DI

CHAS

issue credit and spend money into circulation, and to cancel that part of the National Debt accrued through interest charges.

We will establish an assured home market for our own manufacturing and processing industries by banning foreign imports.

SCANDAL

We recognise the importance of shipbuilding particularly to Belfast's economy. We consider it a scandal that a vulnerable island Nation is prepared to abandon an industry that is crucial to its defence.

However, the NF does not believe that widespread nationalisation would solve Ulster's problems. We advocate workers' co-operatives where, ownership of industry is extended to the whole workforce. Workers' co-ops also generate quality work and job satisfaction.

In cases where workers' co-ops are not possible, the workforce will be offered profit-sharing and representation to compensate for the loss of incentive which comes from being deprived from a share in ownership.

craft builders in Belfast. Private and multi-national ownership, which is purely motivated by the principle of profit and greed, will not secure employment for the workforce — nor ensure that the technologically-advanced aspects of aero-engineering that have been pioneered within Shorts and financed by the tax-payer — will be retained in Belfast. There is also no guarantee that existing and agreed employment practices would continue.

Education

EQUALITY of opportunity in education — and the provision of facilities to fully develop the intellectual ability and practical

THATCHER

skills of our young people — is of fundamental importance. This cannot be achieved, through Comprehensive schooling as parental choice is reduced and individual performance is stifled.

COLERAINE

The National Front supports the Ulster Defence Regiment. We envisage a much more robust assignment for the UDR, which would allow those members of the Royal Ulster Constabulary (RUC) presently engaged in a quasi-military role — to which they are unsuited — to return to more conventional policing.

The NF is opposed to the Supergrass System. We would introduce a National Legal Service to remove the onerous financial expedient from the legal system. We would also segregate all Loyalist PoW's.

Victory To Ulster

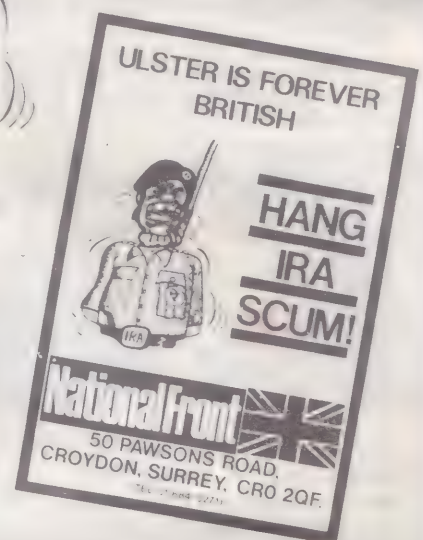

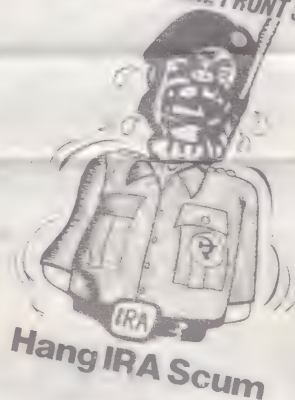

HUNDREDS OF THOUSANDS of anti-IRA leaflets
and posters have been distributed over the last month.
All over the country people have been reading of the
NF's support for the Ulster Loyalists. All over the
country people have seen that Ulster's fight is Britain's
fight.

Even so, our current anti-IRA campaign runs until the
end of March. So there's plenty of time for all NF
units to distribute more pro-Ulster literature.

Patriotic individuals are also encouraged to take our
leaflets and posters and distribute them to their work-
mates or around their area.

Both the poster and leaflet are printed in dynamic
red, white and black. To order, just fill out the handy
coupon printed below.

THE NATIONAL FRONT SAYS

possible.
* Make Republican terrorism an offence punishable by death.

* Ban Sinn Fein and the Irish Republican Socialist Party. Persuade those who sympathise with the Irish Republic to move south and take up residence in Ireland.

* Seal the border to prevent terrorists escaping to the Republic or using it as a launching pad for attacks on Ulster people.

* Start to lay the foundations of permanent social unity in Ulster by making it illegal to use any educational institution to breed Republican sentiment.

COLERAINE

The National Front supports the Ulster Defence Regiment. We envisage a much more robust assignment for the UDR, which would allow those members of the Royal Ulster Constabulary (RUC) presently engaged in a quasi-military role — to which they are unsuited — to return to more conventional policing.

The NF is opposed to the Supergass System. We would introduce a National Legal Service to remove the onerous financial expedient from the legal system. We would also segregate all Loyalist PoW's.

Local Government

WE BELIEVE that open and accountable Government is the best way of preserving the freedom and rights of every Briton. We are opposed to the local government reforms of 1973 which stops locally-elected representatives carrying-out their responsibilities in all but a few menial tasks — and replaces them with Government-appointed 'administrators'.

We believe that local government areas should be re-centred in traditional counties and have the same autonomy and control over expenditure on housing, health, education and other essential public services as local authorities in the rest of the UK.

We Want Work

THE NATIONAL FRONT will get Ulster back to work. We will ban the export of capital by returning to Crown authority the right to

issue credit and spend money into circulation, and to cancel that part of the National Debt accrued through interest charges.

We will establish an assured home market for our own manufacturing and processing industries by banning foreign imports.

SCANDAL

We recognise the importance of shipbuilding particularly to Belfast's economy. We consider it a scandal that a vulnerable island Nation is prepared to abandon an industry that is crucial to its defence.

However, the NF does not believe that widespread nationalisation would solve Ulster's problems. We advocate workers' co-operatives, where, ownership of industry is extended to the whole workforce. Workers' co-ops also generate quality work and job satisfaction.

In cases where workers' co-ops are not possible, the workforce will be offered profit-sharing and representation to compensate for the loss of incentive which comes from being deprived from a share in ownership.

IRELAND

The NF advocates that financial aid to Harland & Wolff is increased to enable it to invest in new technology and in the specialist skills it needs to regain its stature as the leading employer in Belfast.

The National Front is opposed to the privatisation of Shorts Air-

craft builders in Belfast. Private and multi-national ownership, which is purely motivated by the principle of profit and greed, will not secure employment for the workforce — nor ensure that the technologically-advanced aspects of aero-engineering that have been pioneered within Shorts and financed by the tax-payer — will be retained in Belfast. There is also no guarantee that existing and agreed employment practices would continue.

Education

EQUALITY of opportunity in education — and the provision of facilities to fully develop the intellectual ability and practical

THATCHER

skills of our young people — is of fundamental importance. This cannot be achieved through Comprehensive schooling as parental choice is reduced and individual performance is stifled.

Schools should accept pupils purely on the basis of merit, and regardless of family circumstances.

The NF will eradicate preferential treatment for minorities in the allocation of funds or in the development of the curriculum.

Teachers should be better paid, but the teaching profession should earn the respect and confidence of parents and pupils alike by submitting themselves to regular assessment.

Letter From Belfast

Dear National Front News,

I write to say how disgusted I am about the Anglo-Irish Agreement, and the appalling treatment we Loyalists have received from Thatcher's government.

It's great to see so many like-minded Loyalists out on the streets. However, I don't think that holding rallies and marches is enough. We need to do more!

The National Front seems to be the only UK organisation that supports Ulster. But I can't help thinking that it's our fault for not putting across the facts. How are our fellow Britons going to understand what is really going on in Ulster if we Loyalists don't tell them?

The IRA are winning the war here, simply because they have a very professional propaganda machine, which has been in operation for years.

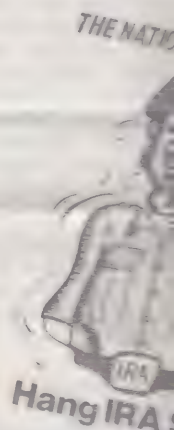

I believe that it's not too late to launch a massive publicity campaign in the UK. We should publish a weekly or bi-weekly paper and distribute thousands of leaflets giving the Loyalist viewpoint.

We can no longer afford to be complacent. It is now time for the people of Ulster to unite and fight. I sincerely hope that many will answer that call!

Yours faithfully,

Margaret Jenkinson (Miss),

ADDRESS

I also enclose a donation of £ . . . p to help the National Front fight back for Britain!

Please make all Cheques/P.O.'s payable to "Nationalist Books" and send them to: Nationalist Books, 50 Pawsons Road, Croydon, Surrey, CRO 2QF. (Tel: 01-684-0271).

COMMUNITY ACTION

COMMUNITY ACTION is a new addition to *National Front News*. Hopefully – and with your support – it will become a regular and major feature of the paper.

Community Action seeks to help the National Front sink local community roots. Indeed, we see this as a very small step on the road to establishing a whole series of Nationalist Advice Centres throughout the UK.

We want to expose local council corruption and incompetence, fight closures of local hospitals, factories and schools, and campaign for decent housing and social services for our people. We also hope to carry advice on what you are entitled to in the way of supplementary benefit, health benefits, housing benefits, etc.

If any NF member or supporter thinks that **Community Action** should focus on their area, then simply send us your community news plus any local press-cuttings. Members of the public who want us to take up campaigns on their behalf, should use the special coupon, printed below. (Please include a stamped, self-addressed envelope, for administrative purposes.)

SELF HELP OR HELPLESS

THE RATHCOOLE SELF HELP GROUP is an excellent local community organisation that operates from 28A, The Diamond, Rathcoole, Newtownabbey, Co. Antrim, Ulster. Tel: Whiteabbey (0231) 60322.

They produce a hard-hitting local newspaper called *Bahd News*. This is full of community news and generally carries scathing attacks on the incompetence of the local Newtownabbey Council.

The group has also done much to restore the pride and confidence of Rathcoole's residents. The group is also very youth-orientated. They have organised exhibitions of the works of local artists, writers, poets and sculptors. An annual festival is now a feature of their work.

The group also operates an advice centre which fights for the rights of local Rathcoole folk.

They have also produced a very good booklet, entitled *Self-Help or Helpless*. This provides a record of past and present activities of the group – and shows how it developed from a series of impromptu meetings into its present form. **Community Action** recommends anybody who is involved in local community work to obtain a copy of this valuable booklet.

Despite the Rathcoole Self-Help Group's Red-tendencies (for instance, we hear that their Chairman, Mark Langhammer, printed the anti-NF posters seen during our 1984 Coleraine march,) it has to be admitted that they are doing a good job for local people.

If they keep off the politics we wish them every success. If, however, they abuse their position, they may end up losing all manner of Council grants.

BAD HOUSING IN LEEDS

MAINTENANCE problems in traditional Leeds council houses are among the worst in the country. That was the shock conclusion of a survey carried out by the Association of Metropolitan Authorities.

Indeed, it went on to mention that Leeds faces the second biggest repair bill in the country for inter-war council housing. Only Birmingham is worse off. The report found that of

Of these, over 17,000 need modernisation. Some 25,000 need re-roofing costing over £36 million. And 7,000 homes need re-wiring at a cost of nearly £4 million.

In addition, £5 million is needed to complete the replacement of outside toilets. Many houses also have only one main power point in them.

To get its inter-war housing up to modern standards, Leeds needs to spend about £276m.

CLOSE DO CITY CA

The Stock Exchange – where pa

THE CITY of London is more than just the haunt of pinstripes carrying brollies and doing mysterious stocks and shares. Recent events have shown it to be a hotbed of crime, corruption and cashing-in on easy money.

The City of London is a plutocrats' Monte Carlo where fortunes are won and lost in an afternoon: a crooked casino where the winners are foreign multinational corporations, shady 'businessmen' and City-slicker Stock Exchange gamblers.

The losers are tens of thousands of British working people thrown on the dole when their productive workplaces go bust on the turn of a share certificate or the whim of a stockbroker.

Ordinary workers and small businessmen rightly expect to earn a fair day's pay for a fair day's work. They expect that what they get out of their job at least broadly reflects what they put into it. They expect that in return for the goods and services they create or sell they will get cash in their pocket or bank account in proportion. That is right and fair and the foundation of a sound economy.

BOOKIES SHOP

On the Stock Market things are very different. There you can simply make money out of money without doing any work at all, beyond a couple of phone calls. To make a fortune, just buy shares when they are cheap and sell them when they have gone up in price. It is just like a bookies shop – you back a share issue instead of a horse and if it comes in you cash in. The difference is that people don't make millions out of betting shops and they don't control the British economy!

Nor are the races so blatantly fixed: on the Stock Exchange, the cunning

Or, if he wants to play the 'league', our City punts 'junk bonds' to his friends. These are shares in an unprofitable operation. Once enough shares have been sold, the ringleader puts in a bid for a reputation. Win or lose, this puts up the shares in the market at a price they've bought, which is off before announcing they've been abandoned.

CASHING IN

If they win, the sharks turn the profitable bits and close the rest, turning a long-term investment into a short-term cash to divide up among themselves – and productive British workers into more dole-queueers. The fate hanging over the Distillers' workers, and the City sharks battle for their companies.

All this is making a mockery of nothing: the sharks put the businesses in whose wheel and deal, and out. This is inherently corrupt and harmful to the British economy.

But City corruption is worse than that. The Matthey Bank scandal involving bribes and centred on immigration (and Tory Party boss Shreeji (who owns Stadium) and Mahmud) as incompetence on

CLOSE DOWN THE CITY CASINO!

The Stock Exchange — where parasites make fortunes.

THE CITY of London is more than just the haunt of gents in pinstripes carrying brollies and doing mysterious things with stocks and shares. Recent events have shown it to be a cesspit of crime, corruption and cashing-in on easy money.

The City of London is a plutocrats' Monte Carlo where fortunes are won and lost in an afternoon: a crooked casino where the winners are foreign multinational corporations, shady 'businessmen' and City-slicker Stock Exchange gamblers.

The losers are tens of thousands of British working people thrown on the dole when their productive workplaces go bust on the turn of a share certificate or the whim of a stock-broker.

Ordinary workers and small businessmen rightly expect to earn a fair day's pay for a fair day's work. They expect that what they get out of their job at least broadly reflects what they put into it. They expect that in return for the goods and services they create or sell they will get cash in their pocket or bank account in proportion. That is right and fair and the foundation of a sound economy.

BOOKIES SHOP

On the Stock Market things are very different. There you can simply make money out of money without doing any work at all, beyond a couple of phone calls. To make a fortune, just buy shares when they are cheap and sell them when they have gone up in price. It is just like a bookies shop — you back a share issue instead of a horse and if it comes in you cash in. The difference is that people don't make millions out of betting shops and they don't control the British economy!

Nor are the races so blatantly fixed: on the Stock Exchange, the cunning

Or, if he wants to play in the "big league", our City punter can float "junk bonds" to his fellow sharks. These are shares in an asset-stripping operation. Once enough have been sold, the ringleader puts in a take-over bid for a reputable company. Win or lose, this puts up the value of the shares in the target company they've bought, which they can sell off before announcing the bid has been abandoned.

CASHING IN

If they win, the sharks' consortium carves up their victim, selling off the profitable bits and closing down the rest, turning a long-established and viable British company into ready cash to divide up among themselves — and productive British workers into more dole-queue statistics. A fate hanging over Allied-Lyons and Distillers' workers, among others, as the City sharks battle over shares in their companies.

All this is making money out of nothing: the sharks put nothing into the businesses in whose shares they wheel and deal, and take millions out. This is inherently corrupt, unfair, and harmful to the British economy.

But City corruption can get much worse than that. The Johnson-Matthey Bank scandal rumbles on, involving bribes and swindling centred on immigrant millionaires (and Tory Party backers) Abdul Shiamji (who owned Wembley Stadium) and Mahmud Sipra; as well as incompetence on the part of the

clear that the City is not only corrupt in itself, but is run corruptly by corrupt crooks, many of them foreign.

While the City sharks like Shamji make millions, the little minnows, the stock analysts and dealers who do their dirty work, are cashing in too. In a typical deal recently, a 28 year-old analyst was lured from a £35,000 a year job with one City stockbroking firm to an American firm offering £130,000 a year. Dealers can earn £50,000 basic plus bonuses of £200,000 a year for leading their masters to rich pickings on the Exchange floor. In the Eurobond field salaries have gone up 75-100% in the last two years.

While skilled British workers struggle to bring up families on the dole, the head of "syndications, sales and trading" for a City merchant bank — a glorified bookies' runner — earns £425,000 a year. All for making nothing — except money.

TAKEOVER

It stinks. And it will stink a lot worse after October 27th, when the City is "de-regulated". The casino will be opened up to giant foreign financial institutions and international financiers like the Rothschilds and Warburgs. Already, foreign financiers have spent over £1 billion buying up the best stockbroking firms, ready to take over the City. The road to even more fiddles and the total takeover of British industry by foreign financiers lies open.

The only way to clean up the City cesspit, end the corruption, the foreign takeovers of British industry, the asset-stripping and the redundancies is to close down the Stock Exchange and ban anyone from

SELF HELP OR HELPLESS

On the Stock Market things are very different. There you can simply make money out of money without doing any work at all, beyond a couple of phone calls. To make a fortune, just buy shares when they are cheap and sell them when they have gone up in price. It is just like a bookies shop — you back a share issue instead of a horse and if it comes in you cash in. The difference is that people don't make millions out of betting shops and they don't control the British economy!

Nor are the races so blatantly fixed: on the Stock Exchange, the cunning punter gets a tip about a forthcoming takeover bid, and buys shares in the target company before news of the bid leaks and their prices rocket. Once the takeover bid is in, our City punter flogs his shares and counts his winnings.

Or, if he wants to play the "league", our City punter buys "junk bonds" to his profit. These are shares in an operation. Once enough have been sold, the ringleader puts in a bid for a reputation. Win or lose, this puts the shares in the market. They've bought, which off before announcement has been abandoned.

CASHING IN

If they win, the shark carves up their victim into profitable bits and pieces, turning a long-term investment into a short-term cash to divide up among the shareholders — and productive British workers — into more dole-queue fate hanging over all. Distillers' workers, and the City sharks battle their companies.

All this is making nothing: the sharks put the businesses in whose wheel and deal, and out. This is inherently and harmful to the British economy.

But City corruption is worse than that. The Matthey Bank scandal involving bribes centred on immigration (and Tory Party baron Shiamji (who owns Stadium) and Mahmud as incompetence on the Bank of England, which to "regulate" the City.

JMB lent vast chunks to Spira and falsified loans. The full story of bribery, corruption, and to be unravelled, but

THE OWNERSHIP OF INDUSTRY WHERE WE LIVE

THE NATIONAL FRONT is neither Capitalist nor Marxist. We believe in the principle of wide-spread private ownership of industry, commerce and agriculture. Marxism denies ownership to all and confines control to a small group of party bureaucrats. Capitalism denies ownership to the majority of the population and confines effective control to a small group of capitalists. Only our system of well distributed property extends ownership and control to the vast majority of people and prevents massive accumulations of industrial, agricultural and commercial wealth and power in the hands of a small number of people.

We will encourage small scale ownership in all sections of the economy where it is economically possible and existing small businesses will be sustained by a system of differential taxation. Large concerns that can economically be split into small units will be divided by operation of law and compensation will be payable to the small investor. Those concerns which have to be operated on a large scale will initially be transformed into companies in which the bulk of share ownership is held by the

Win or lose, this puts up the value of the shares in the target company they've bought, which they can sell off before announcing the bid has been abandoned.

CASHING IN

If they win, the sharks' consortium carves up their victim, selling off the profitable bits and closing down the rest, turning a long-established and viable British company into ready cash to divide up among themselves - and productive British workers into more dole-queue statistics. A fate hanging over Allied-Lyons and Distillers' workers, among others, as the City sharks battle over shares in their companies.

All this is making money out of nothing: the sharks put nothing into the businesses in whose shares they wheel and deal, and take millions out. This is inherently corrupt, unfair, and harmful to the British economy.

But City corruption can get much worse than that. The Johnson-Matthey Bank scandal rumbles on, involving bribes and swindling centred on immigrant millionaires (and Tory Party backers) Abdul Shiamji (who owned Wembley Stadium) and Mahmud Sipra; as well as incompetence on the part of the Bank of England, which is supposed to "regulate" the City casino.

JMB lent vast chunks of its capital to Spira and falsified the extent of its loans. The full sordid story of bribery, corruption, and lying has yet to be unravelled, but already it is

clear that the City is not only corrupt in itself, but is run corruptly by corrupt crooks, many of them foreign.

While the City sharks like Shamji make millions, the little minnows, the stock analysts and dealers who do their dirty work, are cashing in too. In a typical deal recently, a 28 year-old analyst was lured from a £35,000 a year job with one City stockbroking firm to an American firm offering £130,000 a year. Dealers can earn £50,000 basic plus bonuses of £200,000 a year for leading their masters to rich pickings on the Exchange floor. In the Eurobond field salaries have gone up 75-100% in the last two years.

While skilled British workers struggle to bring up families on the dole, the head of "syndications, sales and trading" for a City merchant bank - a glorified bookies' runner - earns £425,000 a year. All for making nothing - except money.

TAKEOVER

It stinks. And it will stink a lot worse after October 27th, when the City is "de-regulated". The casino will be opened up to giant foreign financial institutions and international financiers like the Rothschilds and Warburgs. Already, foreign financiers have spent over £1 billion buying up the best stockbroking firms, ready to take over the City. The road to even more fiddles and the total takeover of British industry by foreign financiers lies open.

The only way to clean up the City cesspit, end the corruption, the foreign takeovers of British industry, the asset-stripping and the redundancies is to close down the Stock Exchange and ban anyone from owning shares in any business for which he or she does not work. British industry and commerce should be owned and controlled by British workers and small businessmen, not spivs, sharks, foreigners and crooks.

THE OWNERSHIP OF INDUSTRY WHERE WE STAND

THE NATIONAL FRONT is neither Capitalist nor Marxist. We believe in the principle of wide-spread private ownership of industry, commerce and agriculture. Marxism denies ownership to all and confines control to a small group of party bureaucrats. Capitalism denies ownership to the majority of the population and confines effective control to a small group of capitalists. Only our system of well distributed property extends ownership and control to the vast majority of people and prevents massive accumulations of industrial, agricultural and commercial wealth and power in the hands of a small number of people.

We will encourage small scale ownership in all sections of the economy where it is economically possible and existing small businesses will be sustained by a system of differential taxation. Large concerns that can economically be split into small units will be divided by operation of law and compensation will be payable to the small investor. Those concerns which have to be operated on a large scale will initially be transformed into companies in which the bulk of share ownership is held by the

employees - the shares being purchased with the assistance of tax concessions. Ultimately they would be transformed into producers' co-operatives. The small investor will receive full compensation. Thus ownership and control of a business by people who do not work in that business will be eliminated. Foreign ownership of British industry, agriculture or commerce will be forbidden by law and it would be illegal to invest abroad the profits of British industry.

We envisage an economy comprising small and medium sized businesses and farms owned by individuals and partnerships; enterprises that are necessarily large which are owned and controlled by employee shareholders in different amounts; producers' co-operatives in which the profits would be distributed among the employees; and voluntary chain wholesalers owned by individual retailers. Nationalised industries would exist in those areas of the economy in which the necessary monopoly position, level of fixed costs or importance to national security or the economy, make public ownership necessary or desirable.

JOE'S BRANCH IS BACK IN ACTION

JOE PEARCE'S home branch, Barking, held a very successful AGM on Monday February 10th.

The new committee headed by NF stalwart Ian Newport as organiser and his assistant Ron Ferrett, includes Anthony Hume (Chairman), Mark Askew (Secretary) and Steve Woodward (Treasurer).

The meeting gave its immediate

approval of a morning of action in Barking on February 15th calling for the authorities to free Joe Pearce.

INVOLVED

Thoroughly involved in supporting the local branch was Joe's father Albert Pearce, while Joe's wife Gina told the members that Joe

was bearing up well to his imprisonment despite losing a number of privileges due to the antics of a couple of lunatics in Kent.

Assistant Organiser, Ron Ferrett ended the meeting by calling on all members to make a really big effort in Goresbrook Ward where NF candidates will be standing in the May elections.

Feb 15th: Barking High Street: John Ross reporting...

THE newly formed Barking Branch of the National Front held a very successful "Day Of Action" on Saturday the 15th of February. Over 50 members from Barking and other East London Branches held a mass paper sale and distributed thousands of "Jailed For Telling The Truth" leaflets while Directorate member Dave Gobell, with the aid of a loudspeaker, informed

local people about the imprisonment of Joe Pearce.

The day was livened up by the appearance of 80 Reds, including the so-called "Newham 7" complete with Pakistani flags! The Reds marched down from Barking Station screaming "smash the National Front", but as they arrived at Barking shopping precinct they decided to stay safely across the

road!

The sight of the scruffy Red mob only made local people more interested in what the NF were saying, and crowds of local shoppers eagerly bought dozens of *NF News*.

The "Day Of Action" was a great success for the new Barking committee with excellent local publicity and new members gained as a result of the activity.

NEW BRANCH FOR LIVERPOOL

branch being split into two.

While Liverpool Branch remains near enough the same the Sefton Branch has been established to look after the area to the north of Merseyside.

Within days of the launch, the new branch was coming under attack from Allan Roberts, Bootle's Labour MP.

(*NF News* readers will remember that it was Mr. Roberts who rose to fame with his exploits in a Hamburg homosexual club. Apart from being led around the floor on a dog-lead he later had to be treated in hospital for injuries received at the club!).

Allan Roberts

ASHES

CHIEF INSPECTOR Day of Finchley Police refused Enfield and Barnet National Front to burn the Eire Tricolour Mrs Thatcher's Conservative quarters in the borough.

The flag-burning was to be a demonstration in Finchley after the Anglo-Irish agreement.

OUTRAGE

Enfield NF spokesman, told local reporters "It is that Her Majesty's government come to an agreement with foreign power which gives them power control over Britain on British sovereign territory. Ulster is not a limited company to be sold off when it is profitable. It is an integral part of the United Kingdom and if it goes away, or to give any form of control over it, is to the trust of the British people."

The banning of the flag by Finchley Police on the grounds that it might upset Irish in Finchley, didn't stop the Enfield and Barnet NF from protesting. After the demonstration outside the Tory office.

The "Day Of Action" was a great success for the new Barking committee with excellent local publicity and new members gained as a result of the activity.

NEW BRANCH FOR LIVERPOOL

THE growth of the National Front in Liverpool has led to the local

branch being split into two.

While Liverpool Branch remains near enough the same the Sefton Branch has been established to look after the area to the north of Merseyside.

Within days of the launch, the new branch was coming under attack from Allan Roberts, Bootle's Labour MP.

(*NF News* readers will remember that it was Mr. Roberts who rose to fame with his exploits in a Hamburg homosexual club. Apart from being led around the floor on a dog-lead he later had to be treated in hospital for injuries received at the club!).

The Labour MP claimed the Front had set its sights on Bootle because they expected to find discontent with problems of drug-pushing, unemployment, bad-housing and vandalism.

Allan Roberts

Labour Party supporters then pledged to organise workers to remove the hundreds of NF posters and stickers that cover the town.

OBITUARY

Sid Campbell who fought and beat the Race Relations Gestapo last year suffered the loss of his wife Jean in January. He reassures the National Front Chairman of his continued dedication to the Party.

Dear Martin,

I write this letter with a heavy heart for I have lost a loving wife and my mainstay in the long battle to save our Nation and everything my generation fought to save in 1939/45, she died at 7.30 a.m. on Friday January 10th.

A few days before Jean died she told me I must continue the fight and stay an activist in the National Front. I told her I would be more active. She knew she was dying.

In January 1974 a handful of NF members including my wife and myself formed a committee and by the time of the general election in that year we took the Medway by storm.

We put up two candidates with a complete campaign including two

large motor-cades with speaker vans. I stood for Gillingham, the media including Southern Television pounded my door day after day. We collected over two thousand

votes. Jean supported me then and at local and county elections, also in the 1979 General Election. She loved to attend our national A.G.M.'s and the Cenotaph Parades.

From the "Red Lion Square" and marches all over England she was at my side until I stopped her before the Lewisham march. I did not want her hurt by missiles. She attended the meeting last year when the Medway council cancelled our booking in spite of the fact she was ill. We have lost a true nationalist. At the age of 61 years Jean lost the battle with cancer in spite of her determination to win, and left me and her family and our many friends to mourn our loss.

Yours sincerely,

Sid Campbell.

If you have room in the paper would you thank our members for their support during my trial last year.

ADDRESS

The Battle for the North-East

Labour attack NF Organiser

A PERSONAL attack of the most vicious and evil nature has been made at a full meeting of Newcastle Council by a Labour Councillor Nigel Todd against the National Front's North-East Regional Organiser Colin Todd.

The Labour Councillor claimed that Colin Todd was a paid full-time official of the National Front who had been imported into the area to build up the party.

The National Front official took great pleasure in replying to the allegations, and on the front page of the *Evening Chronicle* informed its readers that he was not imported. "I was born in Wallsend and far from being a paid organiser I have to use my own dole money for NF purposes. This outburst from the Labour Councillor is just sour grapes over the acquittal of four members of the National Front on trumped-up Race Act charges."

Although only 23, Colin Todd has already served his country in the Royal Navy on HMS Nurton, HMS Bulldog, and HMS

Colin Todd, North-East Regional Organiser.

Hecla with all his tours of duty taking him to Africa, the Caribbean and the United States. Maybe the Labour Councillor would let NF News know what he has done to serve his country?

NF blitz on Tyneside Schools

EDUCATION WORKERS on Tyneside want racist remarks and jokes outlawed in their schools.

Keith Hodgson, Chairman of the Northern Region Education Alliance told the *Evening Chronicle*,

"We are asking teachers to help us make racism in any form totally unacceptable. People in every workplace hear racist remarks and jokes and just tolerate it. We want to make that sort of behaviour beyond the pale".

Hodgson's remarks had been

prompted by a successful leafletting campaign of Tyneside schools by the North-East region of the National Front.

NF organiser, Colin Todd, told the same paper,

"We have handed out thousands of Young National Front leaflets both at Tyneside schools and on the streets. We believe that Marxism is getting a hold in our schools and we are doing what we can to combat it".

NF IN RADIO DEBATE

LISTENERS in Stockton, Darlington and Middlesbrough heard an hour long debate on Saturday February 8th as Colin Todd again took on another Labour Councillor.

This time it was Stockton Councillor Bob Pitt who entered a debate on Race Relations, broadcast by Radio Tees, against clear Labour Party guidelines "That no member of the party should give publicity to the National Front and its views by engaging them in public debate".

The programme proved fascinating with, for 60 minutes, the two party officials locked in discussion of whether Britain should have the role as a multi-racial society or not.

Colin Todd's clear concise arguments won over many recruits to the National Front and a flood of calls to Radio Tees after the programme showed the subject under discussion had provoked a lot of interest.

NF GROWTH IN DURHAM!

A DURHAM Community Group have asked the County Council for funds to combat the growth of the National Front throughout the county.

The move follows leafletting in the town centre and nearby schools and reports of 'secret meetings' by the NF in the area.

"We are worried that people might agree with the National Front publicity and that their policies on unemployment might appeal to young people with time on their hands" said the organiser of the group, the none too Anglo-Saxon sounding Ms. Hope Lieber-son.

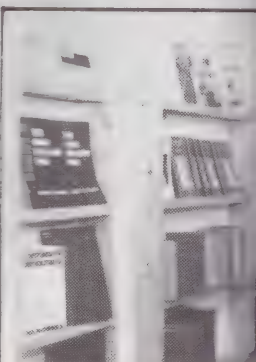

RECE

INC

A NATIONAL FRONT drive in Consett has wing groups banding form a 'Special Council to stem the growth of the town.

Organiser of this 'Spe is one Sean Lee, who format of the council from the committee which ran the 1985 Youth Year. He said was designed to promote amongst young people races.

RECRUITMENT PUSH IN CONSETT

A NATIONAL FRONT recruitment drive in Consett has led to left-wing groups banding together to form a 'Special Council' to attempt to stem the growth of the party in the town.

Organiser of this 'Special Council' is one Sean Lee, who said that the format of the council followed on from the committee in the town which ran the 1985 International Youth Year. He said the council was designed to promote friendship amongst young people of different races.

Consett National Front members

out in the town in force during February selling papers and giving out leaflets. Commenting on the newly formed 'Special Council', an NF spokesman said,

"We fully agree with promoting friendship between races. British people in Britain should be friendly with Asian people living in India and Pakistan and West Indians in the Caribbean, if they want to. We're just against them taking advantage of that friendship and coming in their millions to live in Britain."

NATIONALIST BOOKSHOP

"We have handed out thousands of Young National Front leaflets both at Tyneside schools and on the streets. We believe that Marxism is getting a hold in our schools and we are doing what we can to combat it".

A DURHAM Community Group have asked the County Council for funds to combat the growth of the National Front throughout the county.

The move follows leafletting in the town centre and nearby schools and reports of 'secret meetings' by the NF in the area.

"We are worried that people might agree with the National Front publicity and that their policies on unemployment might appeal to young people with time on their hands" said the organiser of the group, the none too Anglo-Saxon sounding Ms. Hope Lieber-son.

Helpful staff will look after your requirements and the special student liaison officer will be pleased to help those studying Politics and Economics at university or college as to what books and pamphlets can be of special use.

The Nationalist Bookshop is at 50, Pawsons Road, Croydon, Surrey CRO 2QF. The nearest B.R. station is Selhurst. Opening hours are from 11.00a.m. to 5.45p.m.

through your order to be ready when you arrive or would like advice off the student liaison officer on your visit please call on 01-684-0271.
